Cardinal

WHY VINYL?

The many advantages and customization of vinyl liners make them a popular and ideal choice for inground pools. All Cardinal Liners are made with precision to meet the **exact size specifications** of your pool, whether brand new or as an inground or above ground replacement. We offer a **variety of patterns and colors** to help match the aesthetic of your surrounding landscape. Cleaning, swimming & lounging are comfortable and hassle-free as all Liners are **smooth and easy to maintain**, unlike the abrasive nature of concrete or tile. Each Liner has **ultraviolet inhibitors and antibacterial agents** to help ensure a long-lasting life, and is backed by a **25-year limited warranty**. *Additional extended warranties are available. Please see your Cardinal Sales Representative or Dealer for more information.*

A unique, meticulous process where handcrafted care meets precise technology in unison to carefully create a perfectly custom liner for any pool. Our Vinyl Liner Shop is every bit as impressive as it sounds, using the latest technology to produce large volumes of vinyl liners every day.

Once a liner is chosen and proper pool size and specifications are provided, our team uses Automated Cutters to extract liner for pieces of the pool. An Air Welder or Radio Frequency Welding is then used to weld the pieces of vinyl together, creating a bond stronger than the vinyl itself.

Once a liner is in its complete form, quality inspection is performed by our highly-skilled and detail-oriented team. The liner is blown-up to mimic an inflated parachute, and inspection takes place underneath from our team by quite literally, getting on their hands and knees to inspect and feel for any holes, cuts, tears, or imperfections. Quality and care for the process lend well to seamless installation for a beautiful liner with the perfect fit for your pool, every time.
