Why

CARDINAL

Cardinal utilizes 14-gauge galvanized steel walls to build all inground pools that can be customized to the size and shape you desire. Precision and quality are what we strive for, and our total automation process during the fabrication of our panels lends well to this unmatched accuracy. Our walls are manufactured to exact building specifications for seamless installation every time.

Along with the mentioned amenities on the next page, you can make your swimming pool the centerpiece of your backyard. We understand each pool is an investment, which is why we go above and beyond to ensure we deliver when it comes to producing high-quality products and providing superior customer service. As a family-owned business, we understand the value and importance of having a space to create memories for the lifetime of your home. That's why whether you're looking for a backyard paradise to gather with friends and family, a space to exercise and improve your health, entertain for every occasion, or simply escape away from the stress of everyday life, a Cardinal Pool is the ideal choice for you.

WITH A CARDINAL POOL

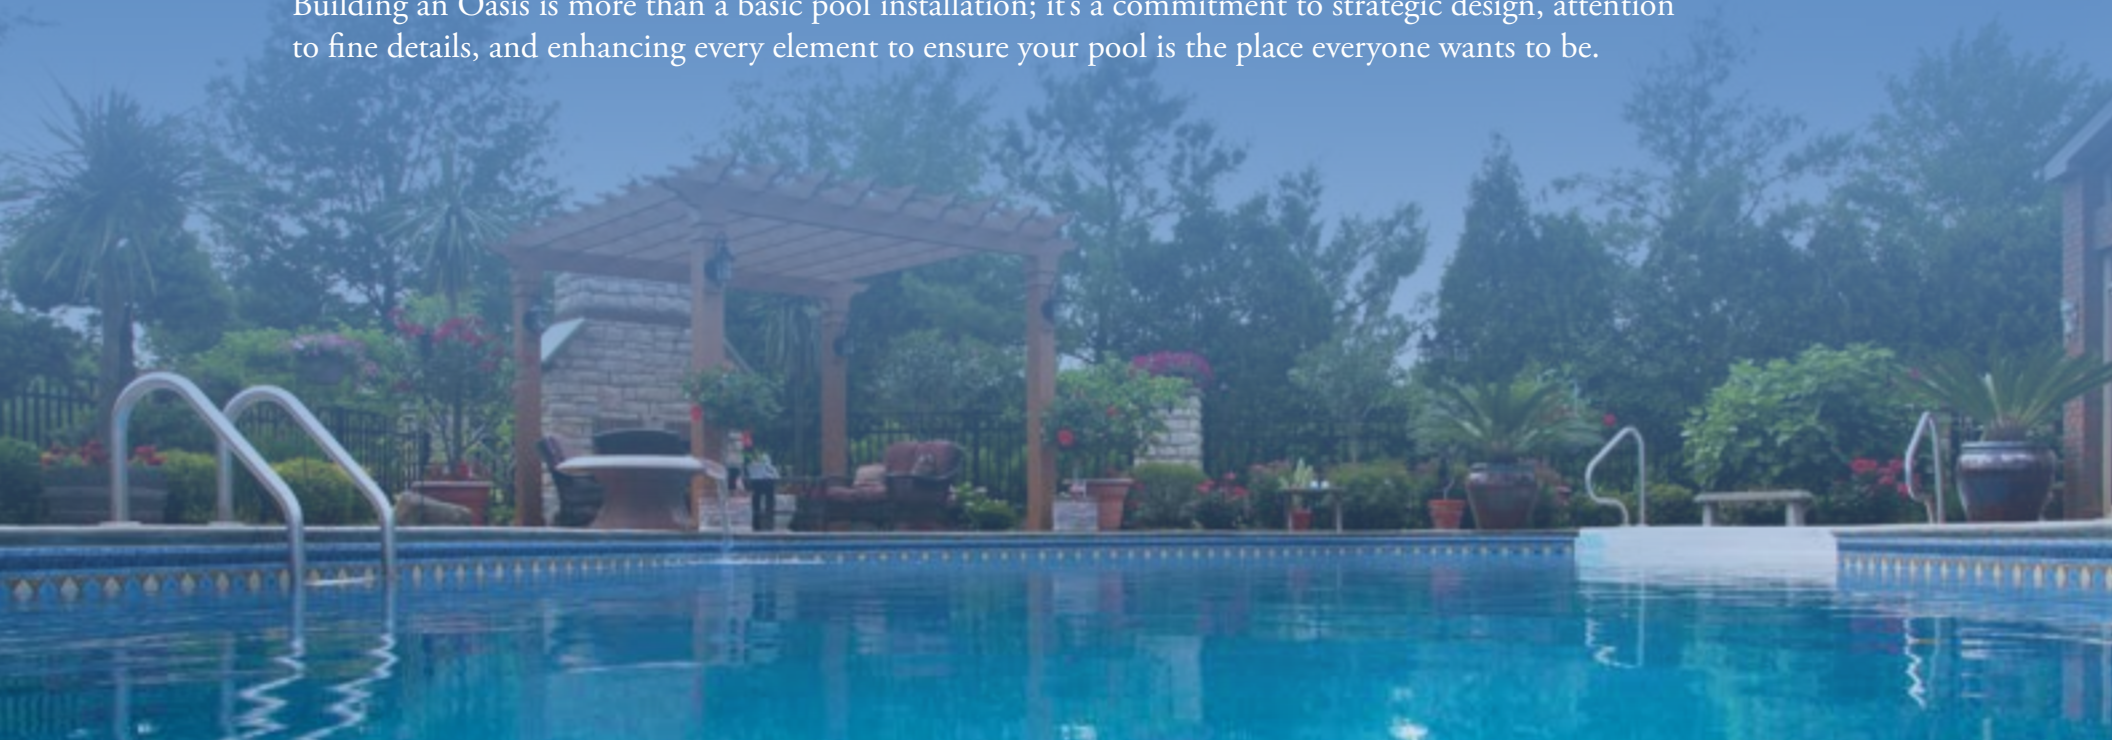

Customization

IS THE CARDINAL WAY

The only limitation to turning your backyard into a one-of-a-kind Oasis is your imagination. If you have a vision, Cardinal is ready to bring it to life.

We strive for greatness in our manufacturing, and deliver when it comes to exceeding expectations. Our highly skilled teams can provide customization at almost every point in the pool-building process to turn your pool, quite simply, into the ultimate paradise.

Building an Oasis is more than a basic pool installation; it's a commitment to strategic design, attention to fine details, and enhancing every element to ensure your pool is the place everyone wants to be.

CUSTOM SHAPES

CUSTOM STEPS & ENTRIES

Custom SHAPES

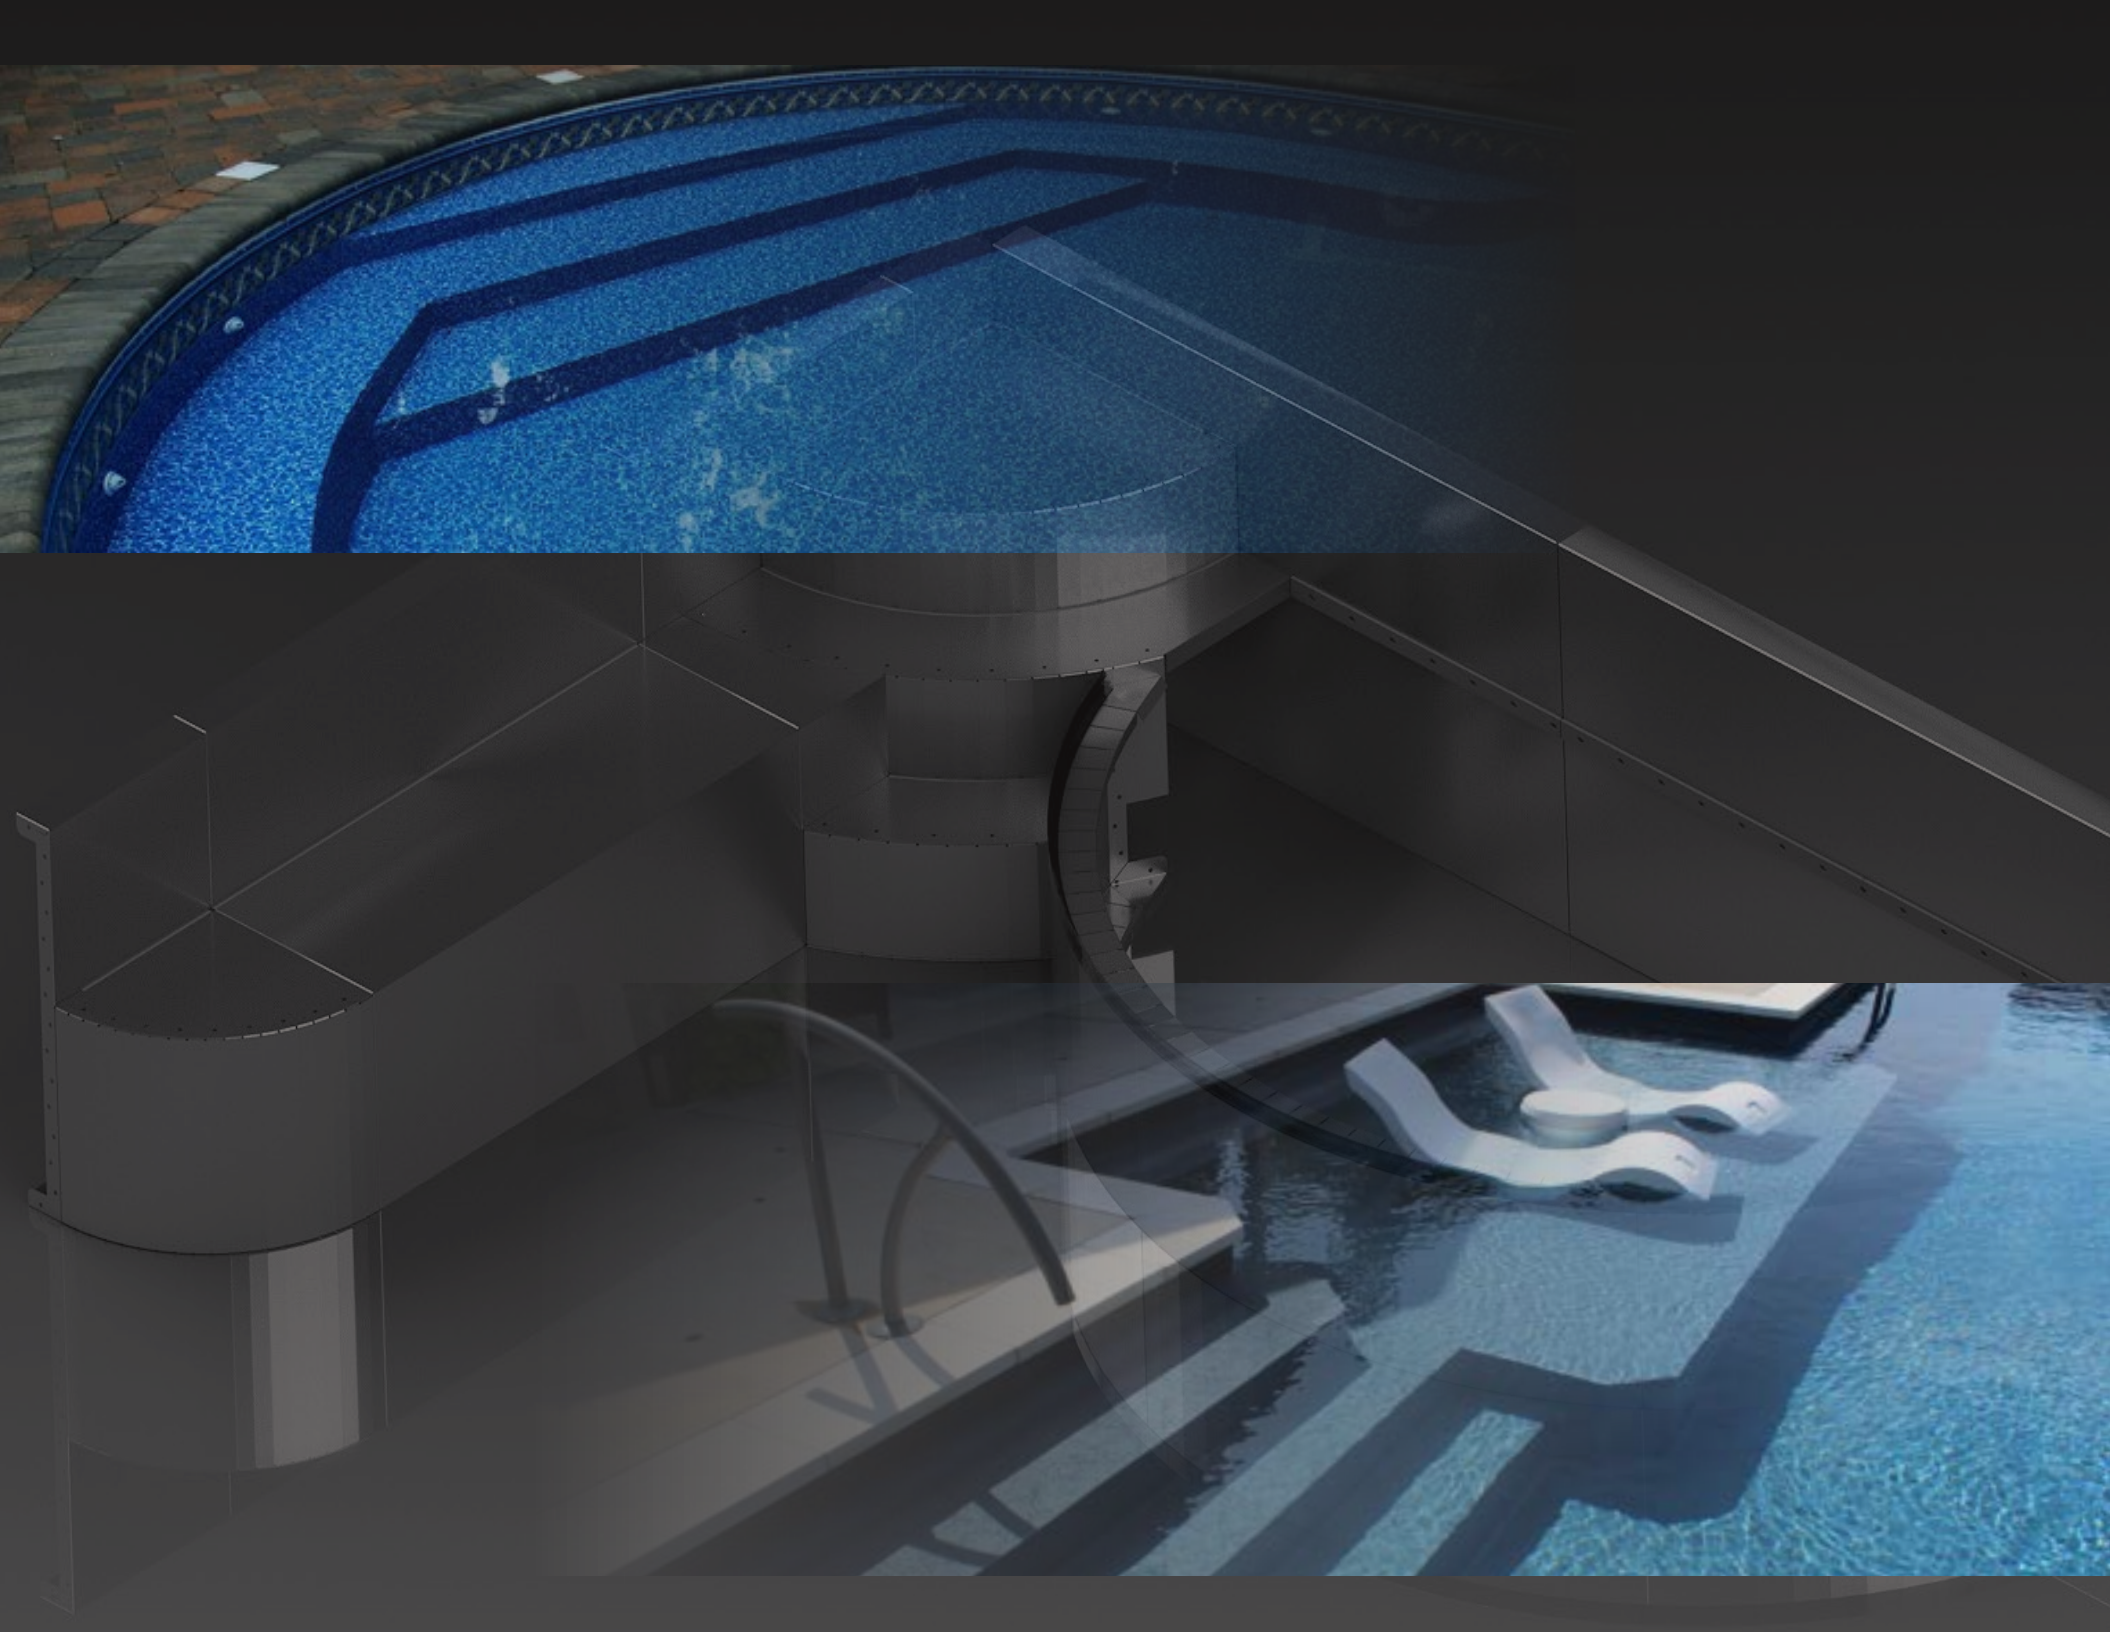

NO *Dream* IS TOO BIG.

The formula is simple: Imagination and Engineering. What you can imagine is what we can create. There are no restrictions on designs, so you can have any size and shape pool you desire.

Elegance and variety are central to Cardinal's custom-designed swimming pools. Gracefully sweeping curves can lend organic, visual movement to your landscape. They are as affordable as they are beautiful, thanks to the strength and economy of modular panel construction. Do you need separate areas so multi-generations can have their own space? Create a shallow space for children and sunbathers and another for the more vigorous fun of slides and games.

Consider a few of the possibilities: you can create specific activity areas with peninsulas of decking, wading and swim zones for recreational swimming, and lap channels for exercise. You have the freedom to express your own personal aesthetic, and create a design tailored to your lifestyle.

Custom STEPS & ENTRYWAYS

Prepare to step into paradise with our functional and elegant custom steel step, bench, and sundeck offerings. Just like choosing a unique pool shape, our design capabilities know essentially no bounds when it comes to creating entryways and lounging areas.

Cardinal's steel steps, sundecks, and benches are manufactured with the finest North American 14-gauge galvanized steel to ensure strength and reliability where it counts. Each piece, whether solid steel or open pour, is made to order and meticulously engineered so that vinyl can lay taut to accentuate each curve or angle.

Luxury can be further extended with our Modular Step System, designed with considerably wide pools and maximized lounging space in mind. This extended entryway offering allows you to determine corner models (left and right) with appropriate step panels, sundecks, or benches to fill the space in between. Choose simplicity or create a combination of intricate pieces for a truly one-of-a-kind step and lounge display.

How you enter your pool matters; it is the first feature pool visitors experience, and the last impression they will receive as they exit. Basking in the sun, entertaining guests, and creating space to make memories requires the lounging and seating areas that standard pools simply don't offer. With Cardinal's custom steel steps and entryways, you can choose how each model fits into your lifestyle and overall aesthetic while meeting the structural needs of the pool's design.
