

Cardinal

THE ULTIMATE POOL

Why is the *Cardinal* Ultimate Pool

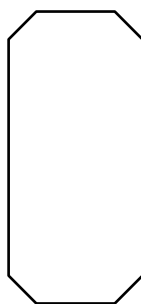

THE *ultimate* pool?

To start, our Ultimate Pool designs provide versatility to meet landscape requirements and fulfill your Customer's pool dream wish list.

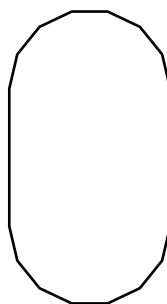

Ultimates are available in 4 standard shapes:

Grecian, Oval, Round, and Modified Rectangle in multiple size options for each. They can also be installed **completely inground, semi-inground, or above ground.**

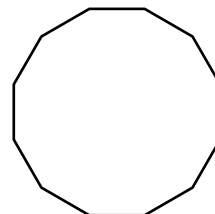

GRECIAN

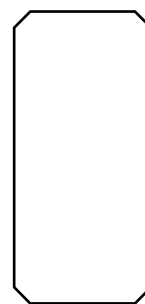

OVAL

ROUND

MODIFIED RECTANGLE

2040 MODIFIED RECTANGLE	846	25,200

* Note: Standard Water Depth in all Ultimate Pools is 4'.

INSTALLATION

POSSIBILITIES

ABOVE GROUND

When installing a Round Ultimate Pool, it is the only shape that can be installed completely above ground. The Grecian, Rectangle, and Oval shapes must be submerged in the ground at least 16" and require buttress supports and a concrete collar similar to a standard inground pool.

SEMI-INGROUND

INGROUND

Epoxy Powder Coated Walls & Supports

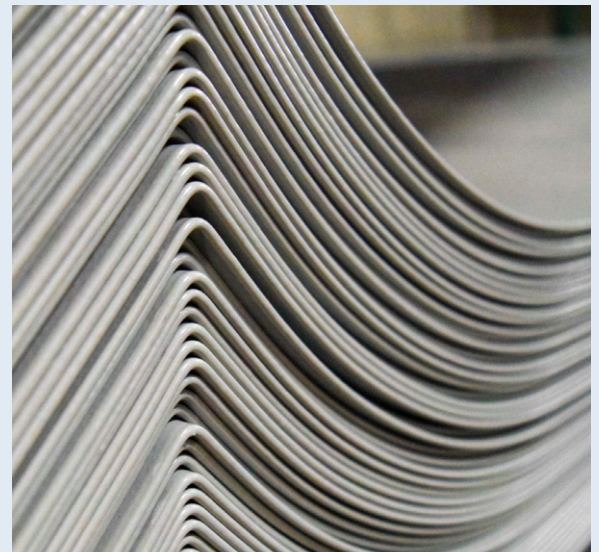

for the **ULTIMATE** Protection

Our polyester coated design for the Ultimate Pool walls and buttress supports was established with durability and reliability in mind. Our coating system provides long-lasting protection from corrosion as the thermal bonding process allows material to withstand the elements. Combining this with a concrete bonding ring on **Oval, Grecian, and Rectangle builds** provides lasting strength in any soil. The coating is applied to all Ultimate steel elements for **all installation types – inground, semi-inground, or above ground.**

Benefits:

- Resistant to color change
- Contains improved gloss retention
- Suitable to withstand most climates
- Highly resistant to scratching, chipping, and fading
- Saves Customers time & money (longevity of product life)
- Eco-Friendly: Powder coating is applied via an electrical charge as opposed to chemical-based adhesion

Even *MORE* Benefits to the ULTIMATE POOL

CUSTOMIZATION

Customization is the Cardinal way, and it doesn't stop with the Ultimate Pool. With a variety of optional add-on features, your Customers can upgrade their pool to satisfy functional necessities, as well as style preferences and aesthetic.

Some add-on features include: a choice between synthetic wood or aluminum bullnose coping top rails, snap-in covers, thermoplastic steps (*Inground installations only*), additional liner patterns from the standard offered, lighting, siding kits (*Above Ground & Semi-Inground installations only*), and more.

*Please note, all add-on features with the exception of the top-rail choices, are not included in the Kit order. Add-ons will be reflected as such on the invoice, and arrive in addition to the Kit at the job site.

All Ultimates can be ordered as **ONE** part number. This saves **YOU** time and planning, and Builders can rely on a complete kit to arrive at the job site, *every time*.

ULTIMATE POOL KITS

All Ultimates come equipped as Kits with the necessary product, hardware, and step-by-step installation instructions for a hassle-free build on the job site. **All kits include:**

- 14-gauge galvanized powder coated steel walls and buttress supports (if needed)
- Top Rail (chosen by Customer)
- Inground-quality skimmer and return
- Hardware, drive stakes, and joint covers
- Vinyl liner pattern chosen by Customer
- A-frame ladder (dependent on pool installation type)

BUILD MORE POOLS

Ultimate Pool Kits come with **all materials and step-by-step instructions** to make the build a breeze. For seasoned pool professionals, Ultimates should take **significantly less time** to complete than a fully custom inground pool build. For new builders or builders in training, this is an ideal build to get them started and gain experience.

**Simple builds + quick turnaround times =
BUILD MORE POOLS in a season!**

To order the Ultimate Pool, contact your nearest Cardinal Dealer or one of our Customer Service Representatives to begin the Ultimate Pool Experience. Normal scheduled working hours for the Customer Service Department are Monday-Friday 8 a.m.- 5 p.m. (EST).
