

A photograph of a swimming pool with a decorative concrete deck. The pool is filled with clear blue water. The deck is made of light-colored concrete with a decorative pattern. Blue PVC forms are visible along the edge of the pool, used for creating the decorative finish. The forms are interlocking and have a decorative pattern on them.

Z POOLFORM™

Z Poolform™ by Cardinal Systems, Inc. is a unique, reusable system that is the easiest and most economical way to finish your pool project with an attractive concrete deck.

Easy to use, cost-effective, and time saving, the forms can be used with vinyl liner, gunite, and fiberglass pools. The three-part system consists of two PVC forms and a form liner that interlock for a safe, efficient, and decorative concrete finish. The eight-foot forms are available in straight lengths and notched pieces to accommodate almost any free-form style.

HOW THE SYSTEM WORKS

The base form fits easily into the liner track of a vinyl liner pool. The back piece snaps firmly on top of the base as a “backboard” for the concrete pour, assuring that no cement will leak into the liner track or onto the pool wall during the pour. The form liner is a flexible rubber insert that is grooved at the top so it will lock firmly into the back piece. The form liner is interchangeable to give you a selection of different edge profiles and textures to tie in with your hardscape design: Square, Bullnose, Bullnose Slate, Bullnose Travertine, Bermuda (French Curve), Chiseled Stone, and Chiseled Slate. These popular textured edges match most deck stamps on the market and eliminate extra work to create a seamless appearance, and creates a 3 inch profile.

For gunite or fiberglass pools, the process is the same; however, a receiver track needs to be affixed to the wall. This is done simply with construction screws or double-sided tape. Cardinal offers the receiver tracks in straight and notched lengths to give you the versatility you need for any pool shape.

Z POOLFORM™ AUTOCOVER

The AutoCover Z Poolform™ is a reusable PVC form used to create decorative concrete copings for swimming pools that works with Coverstar and APC auto cover tracks. The interchangeable form liners will allow for a variety of different edge profiles and textures.

ACF-001: eight 8’ pieces (64 linear feet) of AutoCover Poolform plus 64 Spacers.

ACS-001: 64 Spacers.

*Liners sold separately. (See page 79)

Molded decorative concrete liner slides in.
*Liner insert available in different patterns.

Removable form holds molded liner in place.

Fits most popular auto cover tracks.

AutoCover form spacers insert into the AutoCover Poolform track.

CANTILEVER FORMS FOR VINYL LINER, CONCRETE AND FIBERGLASS POOLS

Z Poolform™

PF-001 Z Poolform™ is a reusable PVC form used to create decorative concrete coping for pools. Interchangeable form liners will allow for a variety of

different edge profiles and textures. Z Poolforms™ can be used with vinyl liner, fiberglass, or concrete pools.

Package contains eight – 8' pieces (64 linear feet) of straight Z Poolform™. This includes the base form and the back piece.

Bendable Z Poolform™

BPF-001 Bendable Z Poolform™ is a reusable PVC form used to create decorative concrete coping for pools. Interchangeable

form liners will allow for a variety of different edge profiles and textures. Z Poolforms™ can be used with vinyl liner, fiberglass, or concrete pools.

Package contains eight – 8' pieces (64 linear feet) of bendable Z Poolform™. This includes the base form and the back piece.

Receiver Track

RT-001 The Receiver Track is used to mount the Z Poolform™ on top of the pool wall of a concrete or

fiberglass pool. The Receiver Track can be fastened to the pool wall with either our 1" Construction Screws or our 2" Polyester Mounting Tape.

This package contains sixteen 8' pieces (128 linear feet) of straight receiver track (RT-001). The receiver track is NOT reusable because it is left in place.

Bendable Receiver Track

BRT-001 The Bendable Receiver Track is used to mount the Z Poolform™ on

top of the pool wall of a concrete or fiberglass pool. The Receiver Track can be fastened to the pool wall with either our 1" Construction Screws or our 2" Polyester Mounting Tape.

This package contains sixteen 8' pieces (128 linear feet) of bendable receiver track (BRT-001). The receiver track is NOT reusable because it is left in place.

Receiver Trim

TP-001 The Receiver Trim is plugged into the Receiver Track (RT-001) after coping has been poured to seal off

and hide the gap left behind from the track.

This package contains 1 roll (65 linear feet) of receiver trim (TP-001). Comes in white, gray, or tan.

HZ LINER TRACK

HZW | HZG When installing Z-Pool Forms on a Vinyl Liner swimming pool, only Cardinal HZ Liner Track is compatible with the forms. Please see page 67 for more information.

REUSABLE FORM LINERS

The reusable, molded decorative concrete liner slides into the Z-Poolform. These inserts are available in different patterns to give a decorative edge to any pool deck. Comes in packs of either 32 feet or 64 feet. All liner profiles are 3" height.

SQUARE

SPL-004: 4 pack – 32'

A flexible rubber insert that will lock into the Z Poolform™. This liner will give you a smooth flat edge.

SPL-008: 8 pack – 64'

BULLNOSE TRAVERTINE

BTPL-004: 4 pack – 32'

A flexible rubber insert that will lock into the Z Poolform™. This liner will give you a bullnose edge with a travertine texture.

BTPL-008: 8 pack – 64'

CHISELED STONE

CSPL-004: 4 pack – 32'

A flexible rubber insert that will lock into the Z Poolform™. This liner will give you a chiseled stone edge.

CSPL-008: 8 pack – 64'

BULLNOSE

BPL-004: 4 pack – 32'

A flexible rubber insert that will lock into the Z Poolform™. This liner will give you a smooth bullnose edge.

BPL-008: 8 pack – 64'

CHISELED SLATE

CSLPL-004: 4 pack – 32'

A flexible rubber insert that will lock into the Z Poolform™. This liner will give you a chiseled slate edge.

CSLPL-008: 8 pack – 64'

BULLNOSE SLATE

BSPL-004: 4 pack – 32'

A flexible rubber insert that will lock into the Z Poolform™. This liner will give you a bullnose edge with a slate texture.

BSPL-008: 8 pack – 64'

BERMUDA (French Curve)

BRPL-004: 4 pack – 32'

A flexible rubber insert that will lock into the Z Poolform™. This liner will give you a smooth capstone edge.

BRPL-008: 8 pack – 64'

ACCESSORIES

Extraction Tool

PET-001 The Z Poolform™ Extraction Tool is used to safely remove the Z Poolform™ from the Receiver Track (RT-001) or liner track without causing any damage to the forms. This tool will help ensure a long life for your Z Poolforms™.

1" Construction Screws

CSC-010 Contains 200 pieces and a 5/32" masonry drill bit. For use in concrete pre-drill with 5/32" masonry drill bit (included).

Serrated thread with multi-head drive.

Heavy duty use.

Z Release

The Z Poolform™ liquid form release.

ZR-004 - 1 Gallon

ZR-020 - 5 Gallons

*1 Gallon covers approximately 750 to 1,000 square feet.

2.5" Vinyl Tape

WVT-250-108 White Vinyl tape used to cover gaps caused by "V notches" in the bendable pool form.

2.5" x 108' per roll

2" Polyester Tape

PMT-200 Double-sided Polyester Mounting Tape used to fasten Receiver Track (RT-001) to top of fiberglass pools. Extremely strong adhesive will stick to almost anything.

2" x 108' per roll
