Pools

AT THE HEART OF OUR BUSINESS

is steel pool parts and components, and custom metal fabrication. Customization is key, and we are happy to work with you to achieve the look and functionality desired. Technology plays an important role in manufacturing the most durable and precise steel products.

We invest in innovative technology — the kind that enables us to engineer, bend, shape, and build the kind of pool systems that surprise and satisfy Customers.

Cardinal steel panels, steps and benches, accessories and replacement parts are manufactured with **14-gauge galvanized steel, or ZAM (corrosion resistant steel)** to ensure strength and durability to last the lifetime of a pool. Our manufacturing processes and computer design ensure that every part is consistent and accurate every time, guaranteeing a perfect fit and easy assembly on the job site.

All panels and steps are available in **42" or 48" heights**, and can be designed to build almost any shape imaginable. Our steel steps are equipped with **aluminum liner track** for simple and seamless liner installation.

Cardinal POOLS

Above is a standard Cardinal vinyl liner pool. Highlighted below are the construction materials and amenities that can make any pool the centerpiece of a backyard.

1. Concrete Collar
2. Skimmer
3. Waterfall Feature
4. Cuddle Cove
5. Diving Board
6. Step Ladder
7. Decorative Brick Coping
8. Walk-in Stairs with Handrail
9. Liner Bead Receptor
10. A-frame Support Assembly
11. Steel Panel Wall

Our variety of traditional and custom shapes are only the beginning of building a backyard masterpiece. Every unique pool idea is brought to life starting with a strong and reliable foundation. Trust in Cardinal to provide the finest North American sourced steel products to your Customer base.

WITH CARDINAL STEEL, YOU CAN GUARANTEE QUALITY.
