

BENEFITS:

- Forms wedge directly into liner track, leaving track clean of debris.
- Can combine forms onto existing Cardinal & Quaker shipments at no additional cost.
- This system uses reusable lock-in clips to hold the forms in place. These clips have an extended support to keep the forms from tilting when concrete is poured.
 - No two-way tape required
 - Easy to install/replace

MODERN MOULDING

is a leading manufacturer of cantilever coping styrofoam forms.

The innovative system designed by Modern Moulding can cut hours off installation and cleanup time. With one of our offered coping kits, a standard pool can be set up and ready to pour in as little as one hour. Versatility is provided with a variety of profile designs, as well as installation capabilities for **vinyl, fiberglass, and concrete/gunite pools.**
